ROSE MACAULAY

## The Writings of E. M. Forster

No other contemporary writer has a reputation and position comparable with Mr. Forster. His first novel, *Where Angels Fear to Tread*, was published thirty-three years ago; his last, *A Passage to India*, fourteen years ago. He wrote, besides these, three other novels, *The Longest Journey*, *A Room with a View*, and *Howards End*, and a large number of critical, literary, biographical and general essays, a guide-book and a biography. All his novels except *A Passage to India* were published before the war. Yet his reputation as writer and novelist appears continually to grow, and it is significant that his work appeals to each succeeding generation, and not least to some of the most vigorous and "advanced" among the poets and novelists who are writing to-day. No full-length study of his work has hitherto appeared, but now Miss Rose Macaulay has written this book which deals with his literary work, his outlook upon the world and life, and its significance in relation to his age.

VIRGINIA WOOLF

Three Guineas

Mrs. Woolf received three separate requests for a guinea. One was from the treasurer of a society which asked her opinion as to how to prevent war and for a subscription to his society for the preservation of peace and of civil and intellectual liberty. One was from the treasurer of a women's college, and the other from the treasurer of a society for obtaining employment for professional women. The book is an attempt to trace the connection between the three requests and to discover upon what terms the three guineas should be given to the three treasurers. These questions are considered from the point of view of an educated man's daughter. The book further develops certain trains of thought which ran through Mrs. Woolf's last novel, *The Years*.

Virginia Woolf's works see page 10

CHRISTOPHER ISHERWOOD

Lions and Shadows

This new book by the author of *Mr. Norris Changes Trains* is part autobiography, part fiction: it attempts to describe the life of a typical young writer of the twenties, his problems, his aims, his ideas. Beginning at a public school, it goes on to Cambridge, where Mr. Isherwood and his friend "Chalmers" inhabited the fantastic world of "Mortmere." There are reminiscences of the London musical bohemia, of tutoring in expensive houses, of the author's brief career as a medical student. Many of Mr. Isherwood's colleagues and personal friends appear, sometimes under thin disguises which the reader-detective will, no doubt, find easy to penetrate. The title, *Lions and Shadows*, is also that of Mr. Isherwood's first and never-to-be-published novel.

EDWARD UPWARD

## Journey to the Border

A good many people have looked forward to reading Mr. Upward's first novel, for the few things of his which have appeared have awakened interest. This book is an imaginative commentary on the predicament of the more intelligent and honest members of the "middle class" in England to-day. The central character, who has a job as tutor in the country house of a well-to-do landowner, is aware of the fatuity and hypocrisy of the fairly comfortable life he leads, but he is convinced that any other job he might succeed in getting would be equally dishonest and subservient. Unable to find a real solution to his problem he attempts to escape by living in his imagination. Outwardly he submits to his employer, inwardly he tries to console himself with daydream fantasies. He accompanies his employer to a race-meeting, and there his fantasies are translated into external-seeming hallucinations. He has a vision of the modern world, which he sees in terms of the racecourse. The vision promises happiness at first, but ends in horror. Finally he recovers his sanity. He renounces fantasy in favour of action. But his vision has at least shown him part of the truth about the modern world and has suggested to him what action he ought to take.

*Fiction*

LIBBY BENEDICT

## The Refugees

This is the first novel by a new writer and has a distinct character of its own. It is in many ways a strange book. It tells the story of a group of people, social democrats, communists or Jews, most of whom suddenly become refugees when Hitler seizes power in Germany. Some of them escape to London, some to Paris, and the novel is concerned with their experiences in those cities and sometimes with the adventures of one of them who smuggles illicit propaganda into Germany. The book shows signs of immaturity, but the story is a moving one. It is also extremely interesting in its analysis and presentation of psychology and it gives one of the most vivid pictures of society and politics in post-war Germany.

*Cr. 8vo. 7s. 6d. net*

SALLY GRAVES

## A History of Socialism

It is a curious fact that, although the public for socialist literature has enormously increased recently, there is still no adequate history of socialism in the English language. Books about the Russian Revolution, the Chartist Movement, or the Paris Commune are greeted by an eager mass of readers whose general knowledge of the whole subject is at best derived from Kirkup's out-of-date primer or party pamphlets. Miss Graves now attempts to fill this gap and to provide a readable introduction to the rest of socialist historical literature. The scope of her book is wide. Its first chapter deals with the political repercussions of the early phase of industrial development in Britain; its last with the role of socialist governments in a Europe dominated by power politics.

## Anatomy of the Peace Movement

James Avery Joyce

This pamphlet provides a simple description of the machinery and activities of the various voluntary societies in this country which are working for world peace, and an attempt at appraisal of their success or failure in carrying out their declared aims. The post-war period has seen so many of these bodies established that even the intelligent citizen who feels it his duty to join one or other of them is a little bewildered by the variety of societies laying claim to his membership or support. For the benefit of the man in the street, the popular Press classes them all together as "pacifist," though in actual truth there are often wide diversities between their respective policies.

After dealing with the work of the League of Nations Union and other societies which stand for "collective security," the writer turns to the distinctly "pacifist" bodies (pointing out the special significance of the recent rapid growth of "Dick" Sheppard's movement), and to the national organizations which merely "federate" the activities of other bodies or furnish propaganda material on special topics. The part which youth is playing and co-operation with similar societies abroad are also briefly sketched. A final section assesses the present influence and future prospects of the movement as a whole in to-day's war preparations.

RAINER MARIA RILKE

## Later Poems

Translated from the German, with an Introduction and Commentary, by J. B. LEISHMAN

This volume is a complete translation of *Späte Gedichte*, published in 1934. The great majority of the 113 poems in it are contemporary with the *Duinese Elegies*: they were written between 1912, when the first two Elegies were composed, and 1922, when the Elegies were completed. No other single volume represents so fully so many aspects of Rilke's mind and art. Some idea of its range may be suggested by the titles of the eight sections in which the translator has arranged the poems: *Figures* (a section which forms a kind of bridge from the *Neue Gedichte*, published in 1907 and 1908); *Moments of Vision* (a section which contains the superb *Five Songs: August* 1914); *The Landscape of Love*; *Night*; *Mirrors*; *Sonnets*; *Nature*; *Life*.

In the Commentary, by means of copious extracts from Rilke's letters and from the memoirs of various friends, the translator has illuminated many difficult passages, and has tried to sketch the background of experience from which the poems arose. The material assembled here will be indispensable to all students of Rilke.

RENÉ LAFORGUE

## Clinical Aspects of Psycho-Analysis

Dr. Laforgue, the leading psycho-analyst in France, has done a great service by putting into book form his lectures to the French Institute of Psycho-Analysis. Speaking with the authority and knowledge of an experienced practitioner he starts methodically with the approach to the patient, proceeds with an outline of the treatment, with well-chosen case histories, and ends with a description of the correct method and time to finish treatment. He also includes technical matters such as active therapy, the treatment of frigidity in women. With an illuminating sureness of touch he deals with the therapeutic factor in psycho-analytic problems which to the lay mind are not connected with neurosis at all, such as the almost unavoidable family conflicts, and the reasons for failure in life.

The book combines the liveliness characteristic of the French with thoroughness and depth. It describes the kind of people fit to undergo treatment, and those who should be advised against it. It also discusses the more thorny problem as to the personalities which make good psycho-analysts. All these problems are treated here in an entirely original manner which is the outcome of independent and unconventional thinking.

## World-Makers & World-Shakers

A series of short biographies for young people

This series of biographies is an attempt to explain history to young people through the lives of great men and great women, and at the same time to present history from a modern and enlightened point of view. There is notoriously a dearth of school books which make these attempts, and for that reason the publishers feel that this series might have important educational results. The subjects chosen will be men and women who epitomized the age in which they lived, or who influenced the course of history, either through what they did or through what they were. The biographies will deal with these men and women in relation to the conditions of their own day, and will trace the effect of their lives on history. The publishers hope and believe that they will not only be within the range of young people of all ages from thirteen upwards, but will also be of interest to many adults.

## BOOKS ON PSYCHO-ANALYSIS

Published by

THE HOGARTH PRESS AND THE INSTITUTE OF PSYCHO-ANALYSIS

Psycho-Analytical Epitomes. A New Series edited by  
JOHN RICKMAN, M.D.

THIS is a new series of psycho-analytical studies which the Hogarth Press is publishing with the Institute of Psycho-Analysis. As material for study in the English language there are the *International Psycho-Analytical Library*, which now contains thirty-one volumes, and the *International Journal of Psycho-Analysis*, now in its eighteenth year, but these are large and necessarily expensive works, and there is a need for smaller and cheaper volumes. This new series of *Psycho-Analytical Epitomes* is intended to meet that need. It will include:

1. Abridgments of classical works on psycho-analysis;
2. The results of new research which can be explained briefly in non-technical language;
3. Short monographs dealing with special topics of general interest in a less technical way than would be necessary in the *Library* or *Journal*.

The Epitomes will not deal with the technique of therapy or, as a rule, with the technical problems of the neuroses, psychoses and character difficulties. Though small, these books will have space for *Bibliographies* and *Indexes*. The series begins with *A General Selection from the Works of Sigmund Freud*. It is proposed later to issue selections from Freud's writings on special topics—*Æsthetics, Religion, Sociology, the Supernatural*, and so forth.
